MADE THE CHICKEN DRUNK.

Prisoner Fined for "Cruelty to Animals."

Judge Sanders, at St. Louis, has solemnly decided that, despite the absence of any provision in the Missouri "Blue Laws" chickens are not allowed to get drunk. Further he held that as a chicken cannot be expected to pay a fine its owner is liable. This extraordinary ruling arose out of a case in which a man named Harry De Lary was arrested on a charge of drunkenness. At the time of his arrest De Lary was in possession of a live chicken, which, according to the police evidence, was also under the influence of drink. Accordingly, De Lary had to face the second charge of "cruelty to animals" for giving an intoxicating liquor.

The prisoner explained that he was on his way home with the chicken when he called at a public house and ordered a glass of soda water. The chicken, which was under his arm, reached out and drank some of it, and it occurred to him to see whether it would drink beer. The chicken did, and he then tried it with whisky—again with success. During these experiments the prisoner appears to have put down of something stronger than soda water himself, with the result that he was arrested.

There was an amusing legal wrangle as to whether a chicken came under the heading of "animals," but after consulting Webster's Dictionary, Judge Sanders decided that it did, and that permitting it to partake of intoxicating liquors came under the heading of cruelty. He accordingly fined De Lary \$5 for each count, or in default three days' imprisonment.

SUFFERERS TAKE NOTICE.
THERE is no necessity of your being constantly annoyed by a coughing in the throat, which keeps you coughing and disturbs your sleep and rest. A dose or two of Chamberlain's Cough Remedy will cut the phlegm which is the cause of the trouble and clear the pulmonary tubes. For sale by all Chemists and Druggists.

The Most Valuable Weapon in the Fight against Consumption.

Dear Sirs,—I have been suffering for several years past from tuberculosis, first of the lungs and subsequently of the larynx, and it is impossible for me to speak too highly of the extraordinary effect your preparation has had upon me during this terrible condition. It has not only checked the wasting, decreased the cough, and lessened the irritation of the tubes, but has greatly increased my digestive powers, so that I have been able to assimilate a greater amount of nourishment. I say distinctly (and the medical men who have been and are attending me, hold the same opinion), that Angier's Emulsion is the most valuable weapon in the fight against consumption. You may refer whomsoever you please to me. (Signed) HILARY SHERBROOK.

ANGIER'S EMULSION

ENDORSED BY THE MEDICAL PROFESSION:

We, of course, do not claim that Angier's Emulsion is a certain cure for consumption, but we do claim most emphatically that (in the words of Mr. Sherbrook) it is the most valuable weapon in the fight against this dread disease. We have abundant evidence of its highest character to substantiate our claims, but the most convincing evidence of all is the fact that Angier's Emulsion is prescribed by leading lung specialists, and is used in the hospitals and sanatoria for consumption. Nearly all doctors now recommend Angier's Emulsion not only in consumption, but for lung troubles generally, and for wasting and digestive disorders.

JOHNSON V. WELLS.

A Study in Style.

We must still regret that Bombardier Wells, the most promising heavy-weight England has had for many a long year, is to fight for the World's Championship before he has come to his full strength and is out of his novice's.

There can be no denying that a lively interest is felt in the match and that many people, including a few professional critics of modern boxing, are gradually persuading themselves that the Englishman has a chance of winning, and ought in any case to make a good show against his older and stronger and much more experienced antagonist. It is difficult indeed, to see how any student of pugilistic form can cherish hopes of a victory for the English champion. But it is possible that he may give Johnson a lively quarter of an hour before he succumb—in which case his reputation would be enhanced rather than impaired. The merit of a glove fight must be measured not by its duration, but by the wealth and variety of its dramatic incidents. Burns and Jeffries succeeded in prolonging their battles with the gigantic negro beyond half-time, so to speak, but it is unlikely that Wells will last into the second stage. But Burns was never able to lift his adversaries the place of a knock-out, and Jeffries except when he got in his famous left dig to the body for the first and last time, could never distinguish the mischievous smile which is a part of Johnson's ring-craft.

Who is this Remarkable Man?

His Marvellous Mystic Powers, Penetrating Insight and Unerring Accuracy Completely Baffle Scientific Investigation.

Reveals Your Inmost Secret. Points Out Your Friends and Foes. Tells you about Changes, Journeys, Opportunities, and says how to make the most of them. Has been Jealously Guarded for Ages by the Priests.

RECENT LIBERAL ARRANGEMENT ENABLING EACH READER OF THE HONGKONG CHINA MAIL TO SECURE TEST HOROSCOPE FREE OF CHARGE.

Is there truly any significance to the seventh veil theory? What gift of talent or power can Prof. Burton Vance to poor ineptly in the lives of people and unfold the hidden mysteries of life? These are the problems that thousands of men and women are seeking to have explained. So great and far reaching are the powers of this great adept become known that his advice is being eagerly sought by scores of people in every part of the world.

Among the many expressions of praise and opinions of his work, the following are fair examples:

Mr. Robert C. Ravus writes:—"The powers of Prof. Vance are nothing short of marvellous—I was absolutely astonished by what I read." Miss Minnie Burnett says:—"This morning I have had another proof of the accuracy of your wonderful predictions." Mr. Lafayette Rodick writes:—"My Reading received. With the greatest amazement I read, as step by step you outlined my life since infancy. I must admit that you are indeed a very remarkable man, and am glad you use your great gift to benefit your clients."

Arrangements have been made to give free test Horoscopes to all readers of the Hongkong China Mail, but it is especially requested that those who wish to avail themselves of this generous offer make application at once. If you want to know about your business, marriage, changes, occupation, friends, enemies or what to do to achieve success, simply send your full name, the date, month and year of your birth, and also state whether Mr., Mrs., or Miss. Send your letter to Prof. Clayton Vance, Suite 438, No. 14 Rue de Richelieu, Paris, France. If you wish you may enclose 25 Cents (stamps of your own country) to pay postage, clerical work etc. Please note that 10 Cent postage is required on letters posted to France. Do not enclose coins or silver in your letter.

IN LIGHTER VEIN.

Is Can be Done. "You make 80,000 marks a year as an aviator? And yet people say you can't live on air."

Old Wealth—Young man, my daughter tells me you kissed her last night. Wally Fitz-Tu-tu—Well, if she wants to boast about it, that's her privilege.

"Why doesn't your wife sing to the baby when he cries?" "Sh! We've found out that the neighbours would rather listen to the baby."

Wife (returning from shopping)—I'm afraid the butcher is giving us short weight for our money! Husband—Never mind, my dear, we'll give him a long wait for his.

"Did you present that bill?" "Yes, sir." "Well, what did he say?" "I'll tell you, sir, if you'll request the typist to leave the room for a few minutes."

Better Part of Valour.—Sister—So Willie Jones kicked you, did he? And did you kick him back? Bobby—No, I didn't. If I had, then it would be his turn again.

"That trained nurse is quite remarkable. She made a man I know cough up a brass tack at the hospital." "That's nothing to what she can do. She made the young doctor she's engaged to cough up a diamond ring."

"What I order poultry from you again," said the man who quarrels with his poultry. "I don't want you to send me any of those aeroplane chickens." "What kind do you mean?" "The sort that are all wings and machinery and no meat."

Friend—Why did you give your wife a pearl necklace for a birthday present? Don't you know pearls are the sign of tears? Husband (significantly)—In this case they were the result of them.

"What do you think of my hobble skirt? Isn't it perfectly fine?" "Strikes me it looks," said the unfeeling brute, "like a 'standing-room only' sign."

A sentry while on duty was bitten by a valuable retriever, and drove his bayonet into the dog. Its owner sued him in the county court for its value. "Why did you not defend yourself with the butt end of your rifle?" asked the Judge. The court roared with laughter when the sentry replied, "Why didn't he bite me with his tail?"

Answered.—Bishop Goodman was one day addressing a Sunday-school when he said, in a most expressive way, "And now, children, let me tell you a very sad fact. In Africa there are 10,000,000 square miles of territory without a single Sunday-school where little boys and girls can spend their Sundays. Now, what should we all try and save up our money and do?" And the class, as one voice, replied in ecstatic union, "Go to Africa!"

Customer—Look here! You said that horse you sold me was fast. Dealer—No, I didn't.

Customer—You said your man drove the horse to Dorking, twenty-three miles, and you went by train, and the horse got there before you did.

Dealer—Yes; but I didn't start till two days after.

"The head partner of a flourishing firm had recently died. A few days after the funeral an old friend called at the office, and said: 'I'm grieved to hear you have sustained such a loss in Mr. —, and I can see you all feel it very much by hanging crapes on the wall.'"

"That's not crapes," replied the clerk; "that's the office boy's towel!"

A Financier.—Boss—"There's \$10 gone from my cash drawer, Johnny; you and I were the only people who had the keys to that drawer."

Office Boy—"Well, 'sposo we each pay \$5 and say no more about it."

Unanswerable Argument.—"Never," said a merchant to me the other day, "try to argue a woman into believing the ought to pay a bill when she thinks otherwise. I tried it this morning—presented a bill for some stuff ordered a month ago. Here was her irreducible logic: 'I never ordered any pictures.' 'If I did, you never delivered them.' 'If you did, I never got them.' 'If I didn't, I must have had some good reason for not doing so.' 'And if I did, of course, I won't pay.' 'What do you think of that?'"

Disappointed.—"Did you have a good time at Mrs. Cadaway's last night?" "Not very. 'I was disappointed.' 'How?' 'Well, several people went d. Miss Mickleworth to sing.' 'And she refused.' 'No, after holding out for quite a while she consented.'"

RHEUMATISM. CHRONIC rheumatism often attacks the larger joints. Internal treatment of any kind would be worse than useless, but by applying Chamberlain's Pain-Balm freely and massaging the affected parts three times a day, a cure may be effected. It will afford some relief at once and by continuing the treatment will eventually effect a complete cure. Some cases, however, require considerable patience. Be careful to keep the bottle handy. For sale by all Chemists and Stationers.

REMARKABLE PATENTS.

Great Fortunes Made in Little Things.

Dr. A. Graham Bell turned a screw a quarter of a single revolution and the patent that formed the basis of the Bell telephone was granted. There had been patents previously that sought to establish the telephone. The Rice patent had come nearest to success. But in the Rice patent the current was intermittent. It had to leap a gap.

When Dr. Bell turned his screw he completed the current and made it constant. This placed the fundamental proposition on a different basis and (says the Philadelphia Record) his patent was granted. It resulted in revolutionizing the method of transmitting messages, and has vitally affected the affairs of every man in the nation who does business. Incidentally it has resulted in the making of some hundreds of millions of dollars directly and indirectly.

Thaddeus Fairbanks was something of a farmer, and encountered more or less difficulty in marketing his produce because of the erratic nature of the stillyards upon which it had to be weighed. He lay awake at night in an endeavour to evolve a better scale. His scheme was to make a scale with a platform, but the difficulty was that the position of the burden on this platform always interfered with the recorded weight. His problem was to evolve a series of levers so arranged that the correct weight would be recorded regardless of the position of the load on the scales.

The solution, the arrangement of the levers, came to him in the dead of night, while he lay meditatively in bed. Next day he worked it out, and soon the platform scale was on the market. Fairbanks' scales have since gone around the world. The Fairbanks family has waxed immensely wealthy. Sons and grandsons, cousins and nephews, are now owners of country homes and private yachts.

THE "FATHER" OF CHEWING GUM.

De Quillfeldt invented a stopper for a bottle, the one that pulls up over the mouth and is tightened by pushing down a clamp. It was the newest and most practical thing in bottles in its day. Its owner is alleged to have made 15,000,000 dollars out of it. But William H. Painter, of Baltimore, invented the Crown Bottle Seal which nowadays has to be pulled off every bottle of hard or soft fizzy water that the nation drinks. It is so common that no key-ring is complete without an opener for it. Painter is still a big man in the company that makes his stopper, and his money is mounting up every minute. Poor De Quillfeldt got another opportunity when some advocate of simplicity fitted a piece of pasteboard into the mouth of a milk-bottle. It seems hard to simplify this. Chewing gum was put on the market in the early seventies. Before that the youth who sought to waste their saliva had to resort to the sweet gum tree down by the old spring. But Adams took out his patent in '71, and has been the power behind a million active jaws every day since. He and his are also among the private yacht crowd, and the yacht output must needs be increased or the chewing-gum money will soon get rusty. The "see that hump" hook and eye people are making millions to-day from the simplest invention of them all. There is not a husband in the land who does not know all about hooks and eyes. Yet not one of these hookers-up thought of putting a hump in the hook to keep it from coming unhooked. Had any one of them got the idea and patented it, he would have controlled the hook and eye business. All that was necessary was to make a bend in the hook. This was the hump. A hump may, in certain circumstances, be patented. The De Longe patented this.

A BLIND MAN'S INVENTION.

Harry Hardwick invented an ingenious carpet. There was a new interlocking of the threads of it that kept it from wrinkling. Hardwick became \$4,000,000 the better for this interlocking. Charles Edward McCarthy was a blind man. He devised a manner of attaching mule power to a cotton gin. He came up from South Carolina and got his patent. Then he travelled among the farmers of the south and sold them his mule attachment. He became independent.

A man by the name of Dailey, by nature an adventurer, came into a patent attorney's office in Washington some years ago, and said he wanted to make an application for a patent on maple sugar. The man was shabby and unkempt, and the patent did not appear in a favourable light to the attorney. He advised against making the application, which dealt chiefly

After fever, Lemco Bouillon is the best and safest tonic. It repairs the waste tissue, replenishes the blood, and builds up a strong constitution. Doctors recommend it.

Lemco

The most highly concentrated Beef in the world. Absolutely pure.
Lemco, Thames House, London, E.C.

with glucose and hickory bark. The man insisted, the application was made out, and, to the surprise of the attorney, granted.

The man appeared at the same office a year later and was not recognized, for he was no longer shabby, far from it. He introduced himself and asked the attorney to file some contracts for him. They called for various State rights for his maple sugar, and represented many thousands of dollars.

A cast-iron tombstone is an invention that has met with a popular response. "It covers the grave and saves money, is practical, and effective." R. R. Catlin, of Washington, invented a pattern cat which had to be stuffed with hay and sewed up to become a living image of Tabby. The game "Pigs-in-a-Clover" was a coiner of money, but the inventor was unable to prevent infringing-mono and lost much of the possible profits. This was due to the fact that he sprung the game while his patent was merely applied for and not granted. The rubber returning ball netted its inventor \$15,000, and the manufacturers much more. Altogether the inventing business has proven occasionally profitable, even to the inventor.

COMMERCIAL.

SHARE REPORT.

Messrs Vernon and Smyth in their weekly share report dated October 13th state:—

Business generally continues quiet, and nothing of material interest has occurred during the past week. "Rubbers" are a neglected market with no transactions reported during the interval. Fine Hard Para Rubber, is quoted to-day at 4/5½ per lb. sellers. Tronchs are somewhat firmer on the week, the closing quotation being 51/8, middle price, with London a buyer at 49/-. Discount rates are unchanged at 4 per cent. Bank of England, and 3½ per cent. (open market rate). Bar silver closes at 24½d per oz. quiet, and sterling exchange at 1/9 3/4 T.T. Shanghai T.T. is unchanged at 75½.

Banks.—Further sales of Hongkong and Shanghai have been booked at \$900 the market closing with probable buyers. London has improved to £24/10/- with buyer.

Marine Insurance.—Unions have been booked and can be placed further at \$840. Cantons are quiet with probable sellers at \$216. China Traders, North China, and Yangtze are unchanged at about last quotations, without local business.

Fire Insurance.—Market is quiet but steady with probable sellers of Hongkong at \$300 and China at \$127½.

Shipping.—Hongkong, Canton, and Macao are firm market at \$27 with buyers, and no sellers under an advance. Indo-China are quiet at \$60 for preferred and deferred combined with probable sellers. China and Manila are procurable at \$11½, Douglas at \$21½, and Star Ferry at \$27 (old) and \$17 (new). Shell Transports have again advanced, and are now in request at 87½ after sales.

Engines.—China Bagns have been booked at \$137 and more shares can probably be placed. Luzons after sales at \$34, \$37 and \$38 are slightly easier with small sellers at \$37.

Mining.—Rente have been booked at \$120 but otherwise no business in this section has come to our notice.

Docks, Wharves and Godowns.—Hongkong and Whampoa Docks are a quiet market with sellers at \$61, and probable buyers at \$60. Kowloon Wharves are for sale at \$50, and New Amoy Docks are procurable at \$73. Shanghai Docks are firm with buyers at \$70.

Land, Hotels and Buildings.—Hongkong Land, have been booked and close with buyers at \$100. West Point have sold at \$47 and Kowloon Land at \$23, with closing steady. Hongkong Hotels are firm at \$119 (old) and \$75 (new), with probable buyers. There are sellers of Humphrey's Estates at \$74.

Cotton Mills.—Hongkong after further sales at \$6½ are now procurable at \$5. In the North Ewos are quoted at \$16, 53, International at \$16, 45, Lion-tung-mow at \$16, 09½ and Soy Chees at \$16, 28½.

Legislation.—China Provident are in request \$8½, Electric at \$22½, Union Water-Boats at \$74, Steam Laundry at \$6, and Powells at \$4. There are sellers of Comoute at \$4, 29, Dairy Farms at \$21½ ex dividend, and China Lights at \$1, 30.

WORTH TWENTY TIMES ITS COST

ONE bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, goes a long way towards relieving suffering humanity. It is better than any doctor's prescription, and worth twenty times its cost in cases of diarrhoea, cramp colic or dysentery, which are liable to come on suddenly at this season of the year. For safety all Chemists and Grocers.

BRAIN FOG.

THE SIMPLEST AND MOST EFFECTIVE REMEDY.

OF the conditions which demand most sympathy and receive least, there are few as depressing to the sufferer as brain fog. The reason is not far to seek. It induces a sense of weariness, of depression, of utter inability to do the day's work or to take any active interest in anything. Its immediate consequences are a morbidness, irritability and moodiness, which are peculiarly disconcerting to the sufferer's friends, who, as a rule, are unable to appreciate the gravity of his condition and put all sorts of wrong constructions on his behaviour.

The cause of brain fog is due to the using up too rapidly of the phosphorus salts, which are of supreme importance in nourishing the brain and nervous system. To cure this condition, the amount of phosphorus must be completely restored. The ordinary salts of phosphorus which were always used have now been proved to be quite inefficient for the purpose. What is needed is a phosphorus preparation in the "organic form" and in "chemical combination," as doctors call it. Of all the salts of phosphorus the best are those known as the glycerophosphates, for it is in that combination phosphorus is found in the nervous tissues and the brain. The best substance with which it can be "chemically combined" is with the body-building part of pure cow's milk. These two substances had their ideal combination in Sanatogen, which is universally acknowledged throughout the world to be the greatest revitalising and reconstructing preparation known to Science and, as a writer in The Medical Press and Circular states: "It has strengthened the physician's hand a hundredfold."

In further discussing Sanatogen that paper writes: "The explanation of the good results it produces is simple enough. Sanatogen supplies the much needed nutrition to the brain cells." As a consequence, the patient sleeps, his energy of mind and body is gradually restored, and he takes exercise and gradually returns to his natural occupations and amusements. Last, but not least, his brain being in a healthy condition, he loses his depression of spirits." These words must convince every sufferer from brain fog that in Sanatogen he has a means of saving himself from further suffering, and of so nourishing his nervous system that he need never again suffer from this complaint.

"Sanatogen" can be obtained at all chemists.

COMING—The Talented Star Artists
HARRIS and VERNON.

It is a commonplace now that one significant feature of cancer is that it is a disease of civilization, not of savagery. In Algeria, for instance, it is unknown except among Europeans. It occurs with the greatest frequency in the temperate zones of Europe, Asia and America; it is seldom seen in Central Africa, the South Sea Islands, Central America and New Guinea. Strangely enough, it is in the fashionable West-end of London, not the squalid East, that it flourishes, and in New York it is far more common in the uptown residential district than in the teeming quarter. Where civilization and sanitation are at their highest, the death rate from cancer is at its highest, too, and any relapse into barbarism would probably be attended by a decrease in the mortality of this disease, which well deserves the name, "scourge of civilization."

So one might say that where physicians are at their best cancer is at its worst, but it remains for a scientist of the future to discover the relation between these phenomena. No incentive has been lacking to hasten the warriors of the laboratory in their campaign against the malignant cell. There is hardly a royal family in Europe that has not been obliged to stand helplessly by while some member died by inches, surrounded by the best doctors in the land. Not very long before his death King EDWARD issued a passionate appeal to medical men to discover a cure. His own sister, the Empress FREDERICK, mother of the KAISER died of cancer. Millionaires in America have been lavish in their support of research work designed to check the ravages of this "malady. There is the PRINCE fund, which is spending millions in the work, and not long ago Mr. Geo. Crocker, of New York, bequeathed \$1,500,000 for the cause of research, not a dollar being permitted for the erection of buildings. In England the Cancer Research Fund is fairly well supported and it is doing excellent work.

As a well-known physician recently declared in public meeting, one in every twelve men and women who pass the age of 40 is a victim of cancer, and science is not even holding its own against this terror. While it has been solving the question of tuberculosis, this even more dreadful agent of destruction has been stealthily advancing, and the hundred reputed curative agents have ended in tragic disappointment. By contrast with the failures of the past, the triumph of the future must seem more glorious, and since the full strength of science is now turned toward this enemy, humanity may well hope that the day of its deliverance is not far distant.

NEWS OF THE DAY.

H.M.S. Astron arrives at Hongkong on Wednesday.

H.M.S. Flora arrived at Sourabaya yesterday and leaves to-day for Singapore.

In view of the fight for the Championship of the world which was to have taken place to-day in Paris, an article to be found on page 2, describing the characteristics of the two principles, will be of interest to followers of the noble art.

Field firing is to be carried out by the 12th Baluchistan Infantry daily from 16th to 29th October, between the hours of 8 a.m. and 2 p.m., from the west corner of Diamond Hill where the spur comes down to the water channel, in a N.N.E. direction against the precipitous cliffs between Shatin and Grasscutters Passes.

Messrs Lloyd, Matheson and Carrut, reporting on China tea on Sept. 21st stated:—The market remains steady for all grades; the extent of business this week has only been on a moderate scale, as buyers are disposing of the large quantities of useful grades of new season's Congous just arrived which they purchased some time ago on overland musters.

On Sunday collection will be made in St. John's Cathedral and the Peak Church in aid of the O.M.S. Hospital at Pakhoi and the Alice Memorial Hospital, Hongkong. The preacher in the Cathedral at evening will be the Bishop of Victoria. Donations from those who are unable to be present will be gladly received and acknowledged by the Cathedral Chaplain (Rev. F. T. Johnson).

SPRAINS.

SPRAINS require careful treatment. Keep quiet and apply Chamberlain's Pain Balm freely. It will remove the soreness and quickly restore parts to a healthy condition. For sale by all Chemists and Storekeepers.

NEWS OF THE DAY.

"Rambling Notes" will appear on Monday.

P. L. Hingkee, Mike's auctioneer, advertises on page 10, a motor car for sale.

A despatch from the Secretary of State relative to an amendment of the Extradition Treaty with Belgium appears in the Gazette.

Those concerned with land and real estate property will read with interest an announcement on page 10 entitled "Valuable property for sale."

We have been asked to draw special attention to the notice from the Sanitary Board regarding typhoid fever which appears on the back page.

A regulation made by the Governor-in-Council provides that no dog brought from Shanghai will be permitted to land in this Colony for a period of six months from October 5th, 1911.

For the quarter ended Sept. 30th, four samples of whisky and four of brandy were analyzed under the Sale of Food and Drugs Ordinance in Hongkong. All were genuine save one of brandy.

The T.C. s.s. Kido is still ashore in the North-east crossing between Kiu-kiang and Wuhu, and we understand that steps will be taken shortly to dig her out and launch her, says the N. C. Daily News of the 9th inst.

Celebrity racing men are greatly agitated over the supposed intention of the Government to introduce a Racing Reform Bill on the lines of the Bombay measure, abolishing book-makers and outside betting. It is believed that in any case the Turf Club intends prohibiting licensed book-makers making books except on the actual courses.

The N. C. Daily News understands that the purchase by the China Steam Navigation Company of the s.s. Lita has been completed and that at the end of the present week the newly-bought steamer will supercede the Pekin on the Shanghai-Ningpo run. Many old residents will regret the fact of the shelving of the Pekin, for she has become almost a landmark, and must be as venerated by her owners, for her earning propensities and good service as she is by Shanghai residents in other ways. The Pekin—an iron paddle steamer, of 3,076 gross and 2,232 net registered tonnage, was built and engaged in 1873 by Messrs A. & J. Inglis, Glasgow. Her dimensions are—length, 291 ft.; breadth, 42 ft.; and depth, 14 ft. 6 in.

SOCIAL AND PERSONAL.

Col. Evans, R.M.L.I., has been granted one month's leave from Tuesday 17th Oct.

Mr F. R. J. Adams has been added to the list of authorised architects in Hongkong.

Major A. S. Boggio, 8th Rajputs has arrived here and assumed command of the regiment on 12th October, 1911.

H. M. the King's approval of the appointment of the Hon. Mr C. H. Ross to be an Unofficial Member of the Legislative Council vice Mr Henry Kewick, resigned, is notified in the Gazette.

ITEMS AT THE COURTS.

Seventeen gamblers from No. 4, New Graham Street, second floor, was fined \$3, at the Magistracy this morning.

The junkman who was found in possession of cocaine labelled "O.K. Saco" was fined \$2,000 or twelve months' imprisonment at the Magistracy to-day.

The master of the steam launch Cheung Wo, was ordered to be re-examined in the rule of the road, on a charge of disregarding the rule, by Commander C. W. Beckwith, R.N., at the Marine Court this morning.

Wong Tze Kau was charged at the Magistracy this morning, with having obtained a cheque book, value \$2.50, on January 12, 1905, with intent to defraud from the International Banking Corporation. The case was remanded, bail being allowed in the sum of \$1,000.

S.S. PERSIA IN A TYPHOON.

The Pacific Mail liner Persia, on arrival at Shanghai from San Francisco via Honolulu and Japan, reported having encountered a twelve point typhoon, when about two days out of Yokohama. The vessel strained and cracked from stem to stern, rolling thirty degrees, it was said, as the huge billows tossed her about.

Many of the passengers sat on the floor throughout the worst of the tempest and were only able to stay there by clinging to objects within reach that were nailed down. The typhoon lasted 8 hours. Captain A. Loewitt took calmly warning when the barometer began to fall in the morning and had everything secured below and all the deck accommodations lashed down. The captain and officers remained on the bridge until the storm had blown over and the crew stood by the boats prepared for any emergency.

That the ship weathered the fury of the elements without sustaining any damage was due to the Captain's energetic measures and the perfect discipline of the crew according to the stories of the passengers. When it was all over they presented a testimonial of their gratitude to Capt. Loewitt for the masterful way he had handled the ship.

HONGKONG FIRE BRIGADE.

The Annual Competition.

Great interest was manifested in the annual Fire Brigade display and competition which took place outside the City Hall on Friday evening, in the presence of His Excellency Sir Frederick Lugard, Secretary, and the Hon. Mr W. D. Barnes, Colonial Secretary. This was the first occasion on which the display was really of a public character, so that there was a great crowd of onlookers both in the street and on the several terraces in the immediate vicinity.

On arrival, His Excellency the Governor presented long service medals to Chief Detective Inspector Albert Collett, Chief Inspector Baker, Inspectors A. Langley, W. Withers, J. Kerr, and W. Cameron as well as to Subalterns Lai Singh, and Chang Din, Sergeant Major Jagjit Singh and Chinese Sergeant Ip Yau, all of whom have been in the Hongkong Police Force for more than twenty years.

Captain F. W. Lyons, Mr P. P. J. Wodehouse, Chief Inspector Baker, Superintendent Lane and Macdonald were in charge of the land competitions, while Superintendent C. W. Beckwith, R.N., had command of the fire floats.

The competition commenced with despatch box drill followed by hydrant, hose and reel and ladder drill. Ample opportunity was afforded the spectators of witnessing the remarkable fitness of the men and the color of which they carried out the several evolutions under competitive conditions. The situation gave the men a chance to show their prowess and they did it right well. Perhaps the finest of the land competition was the wet drill. Long escape ladders were run up the facade of the City Hall and hardly had they been placed in position ere two men were mounting them, each with a hose which, meanwhile, had been connected with the hydrant by others. By the time the men had taken their positions on the ladders a huge jet of water was pouring on to the Theatre Royal, giving it a much needed cleaning. The final land drill was with the engines, and in a remarkably short space of time after the signal was given water was pouring skywards from seven or eight hoses.

But the crowning event of the evening was yet to come. A move was made to Statue Pier, where two fire floats were alongside. Here the firemen had an opportunity of displaying the capacity of the bigger of the two floats. Soon after arriving a tremendous volume of water was shooting skywards to a height of about 200 feet. On being turned on to the sea it simply churned the water up with hurricane force. Later the smaller hose was also utilised and the sight was a splendid one.

The competitions resulted in Fireman Timothy Murphy winning the despatch box drill, all the other events being won by Foreman M. O'Sullivan's team, comprising Assistant Foreman Gerard, Engine Driver Brown, Fireman Garrod, Murphy, Fox, Stuart, Grant (110), Marks, Payne, Patterson and Hedge. In the Chinese section the despatch box drill was won by Fireman Cheng Yau Tin.

The life saving by means of jumping into a sheet, usually regarded as a last resource when all other means of escape have been cut off, was not attempted as on the previous morning during a rehearsal it had been tried and Fireman Cooke, who jumped from the roof of the Theatre Royal into a sheet below was severely injured in one leg. He was removed to hospital and is at present in a very painful condition.

THE SHANGHAI RACES.

From the North China Daily News following—Entries for the Shanghai Autumn Race Meeting, which closed at 4 p.m. on Saturday last, show a decrease of about twenty-five per cent. Of individual ponies there are 788 as against 1,081 for the Autumn Meeting of last year, but the stables number 72 as against 68 for the last Autumn Meeting. The most noticeable decrease is those of the Navy Cup, on the first day—13 compared with 28, the Racing Stakes on the second day—19 compared with 39, and the Cosmopolitan Cup on the third day—12 compared with 26 of last year's meeting. For the Grand National Steeplechase, run on the 6th day, November 11, there are, however, 29 entries, as against 25 for this race last year.

No exception could be taken to the weather, and both tracks were open, but it was considered that the inner course was the faster. The first gallop, by Willow Tree, who covered 1 1/2 miles in 2:56.1, last quarter 33.1 sec., was probably the best of the morning, though the other ponies of the Tree stable also acquitted themselves well, and Cherry Tree's 1 1/2 miles in 2:49.4, last quarter 31.8 sec., and Cypress's 1 1/2 miles in 4:02.1 will also bear investigation. Foreman and Workman are galloping well and will have to be reckoned with in the main events, while Chalks seems to put considerable spirit into his work. The Kwo black seems to be the pick of the griffins, but Mr King's spirited pony is also galloping well, and though a trifle "green," will probably become better acquainted with the game before the Autumn meeting. Of the Navy Cup and other small races, the average in quality, Mr Fisher's seems to meet with more general approval than the majority.

NAVAL NOTES.

(From Our Naval Correspondent).

TAINAN, Oct. 8.

The recent crisis in international affairs led to sudden changes in the disposition of the China Squadron, and the men who thought they had turned their backs upon Wei-hai-wei for several months soon found themselves back in the familiar anchorage, under the shelter of the hills.

Grave messages reached the Squadron on the night of the 22nd ult. and soon instructions were given to the scattered ships to assemble in the Sea of Japan and these movements carried out, they steamed at a fast rate back to the Northern base, there coaling and provisioning were rapidly performed, and the Squadron waited ready for any call that might be made upon it.

While the tension was still high as to the cause of these unexpected movements, the more welcome intelligence of clearer horizons reached the fleet, and bustling preparations soon gave place to the normal activities of ordinary routine.

After a stay of only a few days at Wei-hai-wei the various ships went out to resume their interrupted cruises, the Albatross going to Port Arthur, the Monmouth, the Astoria, and the Newcastle, to Yokohama, and other Japanese ports, and the Minotaur, with the Commander-in-Chief on board, to Tsingtau, where a party of English and German officers is to have a few days' shooting. The Torpedo Flotilla is cruising to various northern ports, and will be several days before it makes a move southwards.

On the passage to Tsingtau the flagship had the misfortune to collide with a large junk, and though no lives were lost or injury done to the crew of either ship, considerable damage was done, especially to the smaller vessel. The accident took place early, on the morning of the 2nd inst., and the junk, after having her bows broken off and the foremast carried away swept along the side of the cruiser, smashing down ladders, stanchions, and boats davits, and breaching down the whaler and a gig, the latter boat falling overboard and sinking almost immediately. At first efforts were made to take the junk in tow, but after one or two unsuccessful attempts, the crew were taken off, and she was left to await the arrival of a salvage tug.

Lieutenant Egerton, the Gunnery Officer of the flagship, has gone home on leave, travelling via the C. P. R. His connection with the Station will not cease for some time, as it is understood that he will be commissioned for a further term as Gunnery Officer on the ship which is to relieve the Minotaur.

A. R. Stanton, the man who lost his arm in a recent gun accident, has been sent to the sick quarters at Yokohama, where he is to stay until his wound is sufficiently healed to permit of his passage to England. His shipmates have raised a sum of \$1,200 for his benefit, and this, with the official grant, will be a substantial aid to him on his return to civil life.

WEST RIVER NOTES.

(From Our Own Correspondent).

WUCHOW, Oct. 11.

Important changes are about to be made in the staff of the I. M. Customs service here. Mr J. A. Von Aalt, who has held the post of Commissioner for the last four years, is about to leave for Europe on a two years' leave. We understand that Mr A. W. Croes is appointed to succeed Mr Von Aalt as Acting Commissioner.

Dr Risaku Sudo, of Japan, has been appointed medical officer to the Customs staff. He is expected to arrive here shortly.

WE HAVE JUST HEARD that an electric-light plant is about to be laid down in the city. This will be a very great improvement. We feel that at last things are beginning to go forward in Wuchow.

WE SHOULD BEGLIED to someone enterprising business firm take up the question of a water supply for the City. If a good supply of water were given us, which could easily be done, it would certainly reduce plague, typhoid and other diseases which are so common here.

THE WAR.

(Continued.)

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.
Fifteen thousand troops were landed at Tripoli yesterday, making the total of the garrison 22,000.
Fifteen thousand more are to follow.

TURKEY CRITICISES EUROPE.

The papers publish a letter from the President of the Turkish Chamber tendering thanks for British sympathy and protesting against the attitude of Europe in permitting the Italian coup.

CHOLERA.

Reuter's correspondent at Malta reports that cholera has broken out in Tripoli. Four deaths have occurred.

THE SULTAN DISCREDITED.

The correspondent of the Daily Telegraph at Constantinople says there are indications that the Military Party are dissatisfied with the supineness of the Sultan, and the name of the Heir Apparent is already whispered as the man most likely to check the disintegration of Turkey.

MINISTERIAL DIFFICULTIES.

Reuter's correspondent at Constantinople wires that the Opposition Deputies have refused to meet the Unionists to discuss a common programme to show a united front to Italy. They have also declined to support the new Ministry, and the Unionists have likewise declined to support the Ministry unless it conforms to a policy of resistance to the bitter end.

The fate of the Ministry is sealed, and a Coalition Cabinet is probable.

ITALY'S MISSION.

A message from Rome states that the Proclamation of the Italian Commander-in-Chief to the inhabitants of Tripoli announces that he was sent not to enslave the population, but to restore their rights, to punish usurpers and to make the people their own masters.

THE CONTRABAND QUESTION.

Reuter's correspondent at Constantinople wires that the Government has issued an additional list of contraband articles, comprising cereals, preserved foodstuffs, bank notes, cheques and bills of exchange.

It is reported by Reuter's correspondent at St. Petersburg that owing to apprehensions that the Porte will treat corn as contraband the Russian Ambassador recently pointed out to the Porte the importance of the matter to Russia. As he did not receive a definite answer, the Ambassador sent a Note declaring firmly that Russian corn must be subject neither to arrest or confiscation unless addressed to the Italian forces and making the Porte responsible for any violation of Russia's rights.

AEROPLANE ATTACK PLANNED.

Four aeroplanes in charge of Italian officers and pilots have left for Tripoli. They are intended to be used in warfare and if occasion arises an attempt will be made to use them in throwing bombs on to the enemy's encampments.

INTERIOR EXPEDITION.

Reuter's correspondent at Tripoli wires that General Canova is organising an expedition into the interior.

TURKEY'S LAST CHANCE.

LONDON, Oct. 14.
Reuter's correspondent at Milan wires that the official quarters emphasise that if Turkey desires a quick and dignified peace she must be reconciled to the fact that Tripoli is entirely lost. If, however, the outrages against Italian missions in Asia Minor and the Italian fleet will carry the war into other Turkish provinces.

BY TELEGRAPH.

THE REBELLION.

(Continued.)

WORST SINCE TAIPING REVOLT.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

Reuter's Peking correspondent says the revolutionary movement at Hankow aims at the establishment of a Republic under the Reformer, Sun Yat Sen.

It is planned that his brother, Sun Yu, shall be the President of the Provincial Assembly, and that the noted scholar Tang Hua-lang shall be Viceroy of Hupoh.

ASSEMBLY SECEDES.

The whole of the members of the Provincial Assembly in Hupoh have seceded from the Imperial Government.

FIRING STOPPED.

The exchange of shots between the rebel forces at Wuchang and a loyal cruiser ceased after a protest by British and Japanese officials, who represented that the Concessions were endangered thereby.

A GRAVE SITUATION.

The Times correspondent at Peking wires that the rebellion is increasing in force and is the most formidable danger to the Government since the Taiping rebellion.

Will the trouble spread? An outbreak is momentarily expected in Canton (Kwangtung), Nanking (Kiangsu), and in the Anhui Province.

THE MINT ROBBED.

The booty seized at Hanyang included 2,000,000 taels from the Mint.

A WORTHLESS ARMY.

Reuter's correspondent at Peking wires that it is feared on the most reliable authority that General Li Quan Heng leads the Hupoh mutineers.

The Government admits that the garrisons at Peking, Tientsin and even Peking, are honeycombed with revolt.

AUTUMN MANOEUVRES CANCELLED.

The Autumn Manoeuvres, which were to be participated in by 30,000 troops at Kaiping, have been cancelled.

THE STRENGTH OF THE MOVEMENT.

(*Wah-See-Pan-Po's Service.*)
SHANGHAI, Oct. 13.

The movement is growing in strength, and the ranks of the rebels have been swollen by many outlaws. It is believed that the rebels now number more than 50,000.

The people hope that the newly-joined outlaws will observe the regulations laid down by the Revolutionists.

CHINESE NAVAL ACTION.

PEKING, Oct. 13.
Admiral Sah has started for the scene of the troubles in command of two cruisers and two gunboats.

An Imperial Edict has been issued ordering the Viceroy to recapture the city of Wuchang without delay. Otherwise, he will be severely dealt with.

[Note—The punishment, according to Chinese law, for a Viceroy who permits the loss of a capital, is decapitation.—E.O.M.]

JAPANESE APPREHENSION.

(*Independent News Agency's Service to the China Mail.*)
TOKYO, Oct. 14.

The rebellion has provoked somewhat of a scare in Japan and it is meriting a great deal of attention amongst officials, who are observing events with the greatest care.

Rear Admiral Kawahama, who has been recommended as commander-in-chief by the respective captains of the gunboats at Hankow, is at present guarding the several settlements with a party of men.

Count Hayashi, the acting Minister for Foreign Affairs, proceeded to the Palace yesterday, where he was received in audience and gave details of the situation in Hupoh.

Vicount Uchida, Minister for Foreign Affairs, arrived in Tokyo today.

The Rebels' Plans.

From a source in Hongkong well acquainted with the reform movement in China we have to-day gathered some considerable information of the intentions of the Revolutionary Party.

BY TELEGRAPH.

THE REBELLION.

(Continued.)

Our informant said these are at present no fear of the movement spreading to Canton, for after their recent experiences the party had come to the conclusion that it was useless attempting to overthrow authority in provinces such as Kwangtung, which possessed a big stretch of coast-line, inasmuch as the Government could easily circumvent any rebellious movements by despatching men-of-war to the spot and landing naval forces.

Therefore previous plans had been abandoned for the moment and attention would be turned to those provinces which could only be reached by land or river. The present plan was to seize Hupoh and Hunan and then to turn attention to Szechuen, Yunnan, Shanai and Kansu, and it was believed that when the movement had been successfully carried through in two or three provinces by taking possession thereof, Kwangtung, Kwansi and Fokien would be won over to the new regime without bloodshed, inasmuch as the bulk of the people of those provinces were tired of the present Government and were thoroughly in sympathy with revolutionary aims.

The idea that the present rising in Hupoh was being led by Dr. Sun Yat Sen was scouted, as, according to our informant, he was regarded by the rebels as a swindler. The real leader of this upheaval was Wong Hing, who instigated the unsuccessful bomb outrage at the Canton Viceroy's mansion some few months ago. He is a well-known leader of the Reform Party, has travelled widely and has secured funds from Chinese sympathisers in America and the Straits Settlements.

When the Canton affair failed to succeed he fled from that city, came to Hongkong and then went to Singapore. While there he called his followers together, but by the time that his plans were completed it was too late to do anything. Then he and his men made for Hupoh, hoping that when H. E. Hsin Chen Hsin, the Commissioner appointed to suppress the Szechuen rebellion, had gathered troops from Hupoh to proceed to Chengtu, the way would be clear for initiating a rising at Wuchang.

However, it was believed that H. E. Hsin heard of this intention, for shortly afterwards it was announced that he would not go to Szechuen and hence the Hupoh troops would remain at full strength. This fact, however, did not deter Wong Hing and his followers, on the contrary, from sympathisers in the army there, he managed to bring about the revolt. He is believed to be still on the spot directing the rebels and shaping their general policy.

THE DUKE OF CONNAUGHT.

ARRIVAL IN CANADA.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

Reuter's correspondent at Quebec wires that Their Royal Highnesses the Duke and Duchess of Connaught arrived on Thursday evening, and were to land this (Friday) morning.

THE STRENGTH OF CANADA.

LATER.
Reuter's correspondent at Quebec wires that H. R. H. the Duke of Connaught has been sworn in at the Provincial Parliament.

Replying to the addresses of welcome, His Royal Highness said the union of the Anglo-French races gave qualities which had made England's greatness in history, thus repeating in Canada a wise rule, under statesmen sometimes of British and sometimes of French descent, giving her a development which was the envy of the world.

THE TURF.

MIDDLE PARK PLATE RESULT.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

The race for the Middle Park Plate, run at Newmarket over a distance of six furlongs, resulted as follows:—
Absurd 1
Sweeper II 2
White Star 3

Ten ran, and Absurd won by three lengths, a length and a half separating the second and third.

The betting was 7 to 1 against Absurd, 2 to 1 against Sweeper II and 6 to 4 against White Star.

ANTHRACITE COAL.

AN IMPORTANT DEVELOPMENT.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

Attention has been aroused by the prospect of a valuable development of the immense anthracite coalfields at the head waters of the Stikine River, British Columbia.

The fields are about 150 miles from the sea board and are capable of commanding the markets in Siberia, China, and Japan and of supplying fuel for naval requirements during time of war when the Suez and Panama Canals might be closed.

[Note—Anthracite is a species of coal consisting almost wholly of carbon. It burns without small smoke with an intense heat, but is rather difficult to kindle.—E.O.M.]

BY TELEGRAPH.

OBITUARY.

(Continued.)

RIGHT HON. MR J. W. MELLOR.
LONDON, Oct. 13.

The death is announced of the Right Hon. Mr John William Mellor.

[Note—The deceased, who was a son of the late Sir John Mellor, Judge of the Queen's Bench Division of the High Court, was called to the Bar in 1860, was appointed Recorder of Grimsby in 1871 and made Q.C. in 1875. Later he sat as Liberal M.P. for Grantham and for the Sowerby division of Yorkshire. In 1888 he was appointed Judge Advocate General and a Privy Counsellor and, from 1893 to 1895, was Chairman of Committees. He sat on several Royal Commissions, was a honorary member of the New York State Bar Association, and was the owner of some 1,500 acres of land.—E.O.M.]

MR E. H. PICKERSGILL.

LONDON, Oct. 14.
The death has occurred from pneumonia of Mr E. H. Pickersgill.

[Note—It was only in July last that Mr Pickersgill resigned his seat as Liberal M.P. for South-west Devon. He was a Magistrate in place of a Metropolitan Police Magistrate in place of a County Court Judge. Deceased, who was 61 years of age, had been M.P. for Bethnal Green since 1885. He was called to the Bar in 1884 and was formerly in the Civil Service.—E.O.M.]

THE JOHNSON-WELLS FIGHT.

THE MATCH OFF.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

Johnson has declined to box Wells at Paris, and consequently the match is completely off.

[Note—It will be remembered that the fight was to take place at the Earl's Court in London, but that the authorities prevented it on the ground of fomenting racial feeling. It was then announced that Wells had agreed to fight Johnson in Paris today, October 14th.—E.O.M.]

THE ANTI-TRUST MOVEMENT.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

The United States District Court at Toledo has ordered the dissolution of the National Electric Lamp Co. and 35 subsidiary companies.

"A FREE CONSTITUTION."

NEW POLITICAL CLUB.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

A meeting has been held in London attended by Lord Halsbury, the Earl of Selborne, the Duke of Northumberland, Lord Chamberlain, Lord Willoughby de Broke, Lord Hugh Cecil, Mr Amery, Sir Edward Carson, the Duke of Marlborough and others.

It was decided to form a "Halsbury Club" for the purpose of "restoring a free Constitution."

STRIKE AT SWANSEA.

SERIOUS RIOTING.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

A strike at the British Waggon Works at Swansea caused prolonged rioting.

The mob tried to prevent an engine being shunted into the works. After much stone throwing they attacked and wrecked the buildings.

The police used their batons on the mob and several were injured.

INDIAN UNREST.

A TIMELY WARNING.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

The Lieutenant-Governor of the Punjab has issued a severe warning that any papers indulging in inflammatory and indecent religious controversy contrary to the law will be rigorously prosecuted.

The situation is becoming very serious.

THE OIL TRADE.

STANDARD OIL COMPANY'S DENIAL.

(*Reuter's Service to the China Mail.*)
LONDON, Oct. 13.

The solicitors of the Standard Oil Co. formally and positively deny that an agreement has been entered into with the Dutch Petroleum Co. and the Shell Transport and Trading Co.

G. R.

SANITARY BOARD

THE Sanitary Board desire to call the

attention of the community to the

fact that TYPHOID FEVER is somewhat

more prevalent in Hongkong than is usual

at this time of year.

This disease is conveyed by polluted food

and drink, and the public are warned

therefore to be specially careful to avoid

unfiltered drinking water, unboiled milk,

raw fish, raw vegetables and food which

may have been polluted by flies.

By Order

W. BOWEN-KROWLANDS,

Secretary.

Hongkong, October 10, 1911. 1345

VALUABLE PROPERTY

FOR SALE.

LOT No. 1. To Shipping Firms and

others not having their own prop-

erty at Shanghai are now able to

obtain a desirable and valuable site

in the business centre of Shanghai.

The property has frontage rights

and is within a few feet of a Cargo

Landing Jetty adjoining that of

three other large business or ship-

ping firms, a square block, being a

frontage on three roads. The land is

registered under British Consulate

Title Deeds, perpetual lease, measuring

over an acre. The net measure-

ment not including roads is about

40,000 square feet and assessed for

Municipal Taxation ending the 30th

of June, 1911 at about \$300,000

Hongkong Currency, not including

buildings thereon, which are insured

for about \$75,000.

A property of this size and advan-

tageously situated is practically not

obtainable in this section of the

Settlement, near the British Con-

sulate. A good chance for an

immense business.

LOT No. 2. That Lot of Land in the

Paoan District of Shanghai, regis-

tered under British Consulate

Title Deeds, perpetual lease, mea-

suring about 54 Mows or 392,000

square feet.
